How can you earn help for yourself or your family by helping others in your community?

Join the Dane County Timebank!

What is a Timebank?
A timebank is a community of people who help each other by sharing their abilities, talents and experiences. We all have needs and gifts to share. When you provide a service for another timebank member you can earn one Time Dollar for each hour you spend providing the service. You can then exchange each Time Dollar you earn for an hour of service from someone else.

Get transportation, child care, gardening help... Learn a language or an instrument... Get to know your neighbors and build your skills!
